Steel Hotel in Edmonton

MEGA BUILDING SYSTEMS

The Four Point Sheraton in Edmonton is taking shape. The hotel is being constructed with MBS prefabricated light gauge steel stud frames and a thin concrete floor system.

The eight story structure will include a restaurant and 120 rooms. The general contractor is RBI Construction Corp. Mega Building Systems is doing the light gauge/structural steel fabrication and erection. The structural engineer is Weiler Smith Bowers. NAK Engineering Ltd. is the electrical consulting engineer. AGN Engineering Ltd. is the mechanical consulting engineer for the pool and spa. Mega Cranes Ltd. provided the tower crane. JM Architecture & Interior Designs Ltd. is the architect.
